

Specification Sheet

ZAZW
Water Sensor

Features

- Easily pairs with an AprilAire S86WMUPR thermostat or Wi-Fi dehumidifier
- Monitors and sends alerts via the AprilAire Healthy Air App
 - Detects water in hard-to-reach areas like basements and crawl spaces
 - Test mode confirms proper function
 - Protects the home from water damage with instant alerts to your phone
 - Flexible mounting options:
 - Horizontal for surface leak detection
 - Vertical with the included bracket for a slim profile
 - 6-foot lead wires included for tight spaces

Receive Instant Alerts Through the AprilAire Healthy Air App

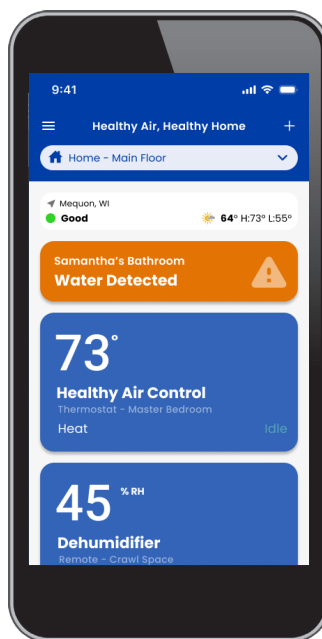

Homeowners will get instant alerts from anywhere, straight to their phone:

- Water Detected alerts
- Low battery alerts
- Historical information

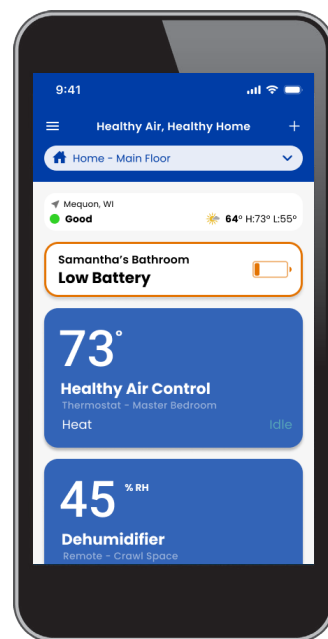

Specifications

Dimensions	<p>Sensor: ∅ 2.17" x 0.98" (∅ 55.0 mm x 24.9 mm)</p> <p>Stand: 2.31" x 2.59" x 1.18" (58.8 mm x 65.9 mm x 30.0 mm)</p> <p>Sensor Cable Length: 78" (2 m)</p>
Battery Type	CR2 Lithium (included)
Battery Life	Up to 3.5 Years
Wireless Communication Protocol	Zigbee 2.4 GHz HA 3.0
Wireless Range	Up to 100 ft (30m)
Operating Conditions	32 to 104°F / 0 to 40°C 20 to 90% humidity (non-condensing)
Storage Conditions	-4 to 185°F / -20 to 85°C 20 to 95% humidity (non-condensing)
Operating Current	Less than 180mA (peak) at 3.0V DC
Standby Current	Less than 7uA at 3.0V DC
IP Rating	IP 57
Sensors per Thermostat or Dehumidifier	Up to 9 per Wi-Fi Device

Water Detected Alerts

Low Battery

Pair with a Wi-Fi Enabled Dehumidifier or S86WMUPR

Protect against potential damage from multiple locations:

- Water Heaters
- Crawlspace Entries
- Sump Pumps
- Sewage Backups
- Drainage Leaks
- Condensate Pumps
- Hose Disconnects
- Appliances
- Sinks
- Toilets

Connect up to 9 wireless sensors!
